WHAT IS AMBER VAULT M365 BACKUP?

Amber Vault Microsoft 365 backup provides control, peace of mind and protection of your Microsoft 365 data including Exchange Online, SharePoint, OneDrive for Business and Teams.

A common misconception when dealing with Microsoft 365 is the assumption that Microsoft backs up your data. This is not the case and Microsoft's shared responsibility model leaves this responsibility in the user's hands to ensure they have adequate backups of their data.

Whilst Microsoft does provide features that drastically reduce the chance of any data loss, such as multiple global replicas of data and retention policies, there are still several circumstances that are not covered, some of these are...

- Malicious internal or external attacks
 - Accidental deletions
 - Retention policy gaps and confusion
 - Not wanting to be dependent on one vendor's services for critical data,
- Amber Vault M365 backup allows you to protect your key data whether that's your whole M365 organisation or just a select number of mailboxes or SharePoint sites.

30 DAY FREE TRIAL

- COMPLETELY FREE
- NO OBLIGATION
- NO HARD SELL
- NO POST TRIAL HOUNDING
- IF YOU'RE NOT IMPRESSED YOU
SIMPLY WALK AWAY

WHY CHOOSE AMBER VAULT?

- **Quality** - Not all clouds are created equal! Our platform is built exclusively on enterprise-level HPE hardware so you can be sure your data is in safe hands.
- **Experience** - We have been implementing M365 solutions since its inception over 10 years ago and are experts on all aspects of its configuration.
- **Approachability** - We are passionate about problem-solving and whilst we love talking technical, we also believe in simplicity and will work with you to find the right solution for your business.
- **Security** - An aspect commonly overlooked when dealing with cloud providers, our platform spans 2 Tier 3 UK based data centres with all data encrypted to military-grade standards.
- **Support** - Support is where we shine. Our fully managed services come backed by our team of 16 highly skilled engineers.
