KEY FACTORS

- 100% RECOVERY TO DATE
- UK BASED DATA CENTRES
- FULLY MANAGED SERVICE
- COST EFFICIENT DESIGN
- SKILLED TECHNICAL ENGINEERS

WHAT IS AMBER VAULT LITE?

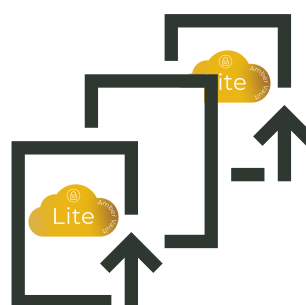

Amber Vault Lite provides automatic scheduled cloud backups of critical files and folders on servers or workstations in situations where you may not want to back up your entire system to the cloud, ensure your key data is still protected and backed up in the cloud in case of a disaster.

A company's data is its greatest asset, and we know the challenges businesses face trying to ensure it remains safe whilst navigating today's world of advanced cyber threats. Amber Vault Lite allows businesses to take advantage of the benefits of cloud backup in a cost-efficient way.

Our fully managed solutions can be tailored to your needs and enable you to relax safe in the knowledge that your data is backed up to one of our UK based Tier 3 data centres and looked after by a skilled team of technical experts.

Amber Vault is underpinned by the market leading Veeam backup software.

- IF YOU'RE NOT IMPRESSED YOU
SIMPLY WALK AWAY

WHY CHOOSE US?

- **Quality** – Not all clouds are created equal! Our platform is built exclusively on enterprise-level HPE hardware so you can be sure your data is in safe hands.
- **Approachability** – We are passionate about problem-solving and whilst we love talking technical, we also believe in simplicity and will work with you to find the right solution for your business.
- **Security** – An aspect commonly overlooked when dealing with cloud providers, our platform spans 2 Tier 3 UK based data centres with all data encrypted to military-grade standards.
- **Support** – Support is where we shine. Our fully managed services come backed by our team of 16 highly skilled engineers.
