

CKM4 – Job Costing Portal

Product Overview:

CKM4 is a cloud-based portal that can be accessed from a web-browser on any device from any location. Linking to the Pegasus Opera SQLSE back-office accounting system ensures the data accessed via the portal is in real-time. Budgeting and forward costing can be accounted for on the Portal along with commitments and actual costs being updated from Opera postings.

Key Functionality:

- ✓ Accessed via a web-browser using a secure https address on the company's web server
- ✓ Provides a detailed overview to enable Project Managers to manage their Jobs proactively
- ✓ The summary information displayed on screen can be exported to Excel
- ✓ Agreed variation orders are written back to job costing amending revised budget figures.
- ✓ A Project Manager can be limited to seeing only their jobs on the portal
