

Order Punchout

with Experlogix Digital Commerce

Experlogix Digital Commerce Order Punchout reduces friction for your customers as they shop for and order your products, allowing them to access real-time order information directly from their Procurement system.

This translates to:

Less stress and shorter purchase approval times.

Less reliance on manual admin work.

Increased customer loyalty & Retention.

More consistent and accurate data.

Order Punchout Process

Key Benefits

Frictionless Ordering & Shopping Experience

All the benefits of Digital Commerce, within your procurement system.

Accelerated Purchase Approvals

All the information your customers need for purchase approvals, available at their fingertips.
