

“Reliable, Personable, Service”

**Nick Chippindale,
Managing Director**

**“DCS know us and our business,
they appreciated what we had to achieve
with our relocation and helped make it
happen.”**

The company moved premises in 2013 from their family farm in Starbeck to a new bespoke site in Flaxby. This was to meet the growing demands on capacity and to improve logistics.

In their new carbon efficient facility, using sophisticated databases and a bespoke traceability systems, Chippindale Foods pride themselves in their values to deliver sustainable quality.

How DCS helped Chippindale

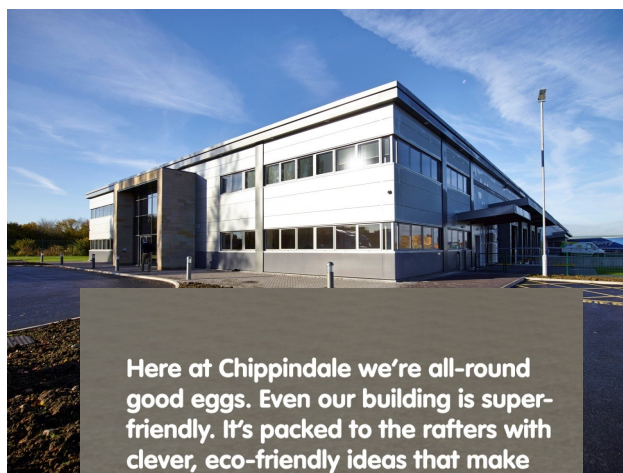

Nick Chippindale and the team feel that “DCS know our business and us”, and

- DCS were extremely helpful with our major move, delivering as promised on time over the weekend.
- ensured a smooth move, transferring the kit to the new premises, including Wi-Fi, hardware, Opera, software and ensuring the email and systems were up and running on Monday morning.
- we know several of the Engineers at DCS and this is important to us.

Chippindale Foods

Chippindale Foods, is a family run Yorkshire business, set-up in the 1930s by Leonard Chippindale, and expanded by Ian Chippindale. The company is now being run by Ian’s son Nick. The company has evolved over 80 years, from producing eggs on its own farm, to working with over 30 contracted producers across Yorkshire. The company now grades, packs and distributes over 4 million eggs per week to retailers including Morrisons, Aldi and Booths.

Their mission is to help consumers enjoy eggs more, through engaging packaging, on-line recipes and social media.

**Here at Chippindale we’re all-round
good eggs. Even our building is super-
friendly. It’s packed to the rafters with
clever, eco-friendly ideas that make
our free-range eggs as good for the
planet as they are for you.**
