

Iplicit is the cloud-based Accounting software that is tailored for the frustrated on-premise legacy software user. Providing greater flexibility and enhanced levels of reporting, Iplicit integrates into other cloud applications and offers a seamless migration path from your existing system. It is the natural choice for organisations seeking to 'step up' to next generation finance software, without losing the functionality they currently enjoy.

Brought to you by the team that originally created Exchequer®

Finance and accounting

Finance and accounting are at the heart of Iplicit. When it comes to business finance you'd expect any ERP solution to cover all the basics. But you'll be amazed at the comprehensive breadth and depth of functionality available within Iplicit.

Resource and project management

Iplicit is the go-to place for all your key business information, even pulling in data from your existing systems to avoid any duplication of effort. And being in one central place means you can cross-reference information, run valuable reports and analyse your business efficiently.

Dashboards, reports and enquiries

See the big picture at a glance and get easy access to highly detailed analysis. Iplicit gives you an extensive set of standard reports and graphic analyses out of the box, and of course we'll set up any others you might need during implementation. And our phenomenally powerful enquiry system and report generator lets you dig down (or up or across) to whatever level you like.

Efficiency, accuracy and professionalism

lplicit ensures your operations are streamlined, accurate and meet the highest professional standards. Our workflow engine routes and manages responsibilities efficiently and effectively. Scheduling automates processes, saving valuable time daily. Document management puts you firmly in control of vital business documentation, while lplicit's interconnectivity gives you instant access to information from wherever you are.

Business planning

What happens next really matters. It can transform everything. To make those big decisions, you need the right information about your current position and the ability to forecast and model scenarios quickly and accurately. That's where Iplicit steps in.

Company-wide access

You determine exactly who does what in Iplicit. It's easy to set up a range of different users, so you can empower all the right individuals with the right information and responsibilities. You're in complete control. And as long as you've got the internet, you've got Iplicit anywhere.

Seamless integration

Iplicit adapts to your existing ways of working and other software and systems you use. Our interfaces are built to handle data in a wide range of industry standard formats. Just let us know how you'd like to work and we'll do the rest.

Expert implementation, training and support

No business software solution is complete without great people to help you get the maximum benefit.
